

NEON Mentoring Program

The purpose of this program is to help the NEON family, from the youngest to the oldest.

The mentor benefits:

- Through a short investment (5 minutes after a practice) by taking an interest in your swimmer. Ask how things are going; help them through the hurdles you have been through, they will feel that someone besides their coaches and parents really care and that they can succeed.
- It's most likely only through the summer season as you may swim in high school! Who knows, your swimmer may come and root you on in the winter!
- You will receive a nifty certificate (suitable for framing) that you can hang on a wall!
- You can put it on a college application or resume!

The mentorie (is that a word?) benefits:

- Someone besides their coaches and parents are encouraging them, teaching them and caring for them, who knows, you may teach them something, or really scary, you might learn something.
- Swimmer can interact with mentor and see what can happen with all the hard work the mentor has performed and the swimmer will understand what to do to succeed.
- In an individual sport, this may help a young swimmer feel like part of a team.

NEON Benefits:

- The only local USA team that has a sanctioned mentoring program. It will make us stronger and help in recruiting other swimmers (Don't call me on the only one part).

Swimmers Name: _____

Email Address: _____

Phone (Best): _____

Age: _____ Group and Years at NEON _____

School: _____
